

MEHMET DOĞAN ÜÇOK, Ph.D.

Mehmet Dođan Üçok is the Coordinator of Istanbul International Center for Energy and Climate (IICEC) since 2012, in charge of directing progress towards achieving the overall objectives of the Center.

Mehmet Dođan Üçok holds a Ph.D. in National and International Security Strategies from the Turkish General Staff War Colleges Command, Strategic Researches Institute (2012), an M.A in Social Sciences (MAPSS), The University of Chicago, IL., U.S.A.(2004) and a BSc in Economics and Management from the London School of Economics External Programme and from İstanbul Bilgi University *Honors* Programme.

During his research assistantship at the Massachusetts Institute of Technology Energy Initiative (MITei), Üçok contributed to *The Future of Natural Gas* in the “Geopolitics of Gas” section, working as an assistant to MITei Director (2010). Üçok’s area of interest encompasses national and international security strategies, geopolitics of energy security, foreign policy, diplomacy and strategy formation. During 2004-2007, Üçok served as the Deputy General Director and Member of the Board responsible for Turkey at the Tuzlacı A.Ş. - the Exclusive Agency of *Sultex Ltd.* (Switzerland).
